

What if you couldn't see their faces?

Could you still share their joy and sorrows?

What if you couldn't hear their voices?

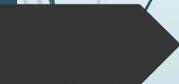

Would you still enjoy spending time with them, would you feel connected?

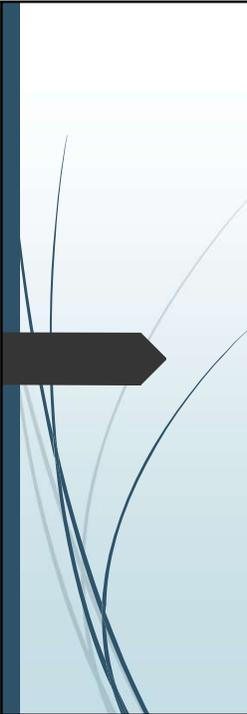

What if you couldn't walk,
run, move with them?

Would you still enjoy vacations, weekends,
sports?

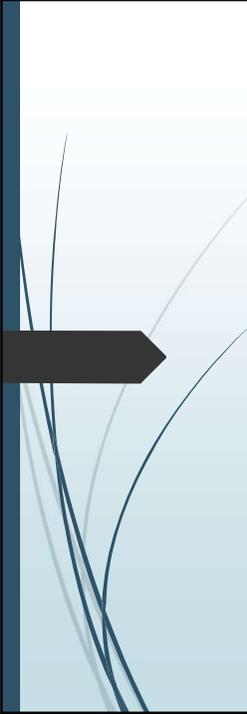

It Can Change In An Instant

Job Briefing

Why do you do job briefings?

Job Briefing

How many of you wear hearing protection
100% of the time and wear it correctly 100%
of the time?

Job Briefing

- WO#
- Supervisor
- Work location
- Work scope
- Additional PPE
- LOTO holder's name
- Work procedures & permits
- Hazard mitigation plan

Job Briefing

Once you lose your hearing – it's gone, it cannot heal itself

You may lose your hearing slowly and not notice for awhile - others may notice it first

Some sounds may become difficult or impossible to hear

“s” “h” and “f”

voices of women and children

birds chirping

flute, violin and other high frequency instruments

Ready To Work... let's stand up and go to the floor

Early in the shift, equipment goes down

Maintenance is called

Need to drain the line, block, lock and tag

Will take most of the day to get back up & running

BREAK TIME!

Supervisors are all in a meeting

Line was drained and down when you left

Maintenance said it would take most of the shift

Time to return to the floor

You engage in a conversation with maintenance

It's 10 minutes till lunch break

You realize you have left your face shield in your locker

Do you go back and get it now or wait till after lunch?

You are playing a game of risk

You are gambling with your safety

Let's see how it turns out today

1. Remove 10 pieces and lay them on the table

2 at a time, using the white tool
Put the red and green parts back into the bowl

3. Count the number of people in the 3rd row

4. With the red pen write the # of people on the pink paper

5. Sign your name with the black pen on the white paper

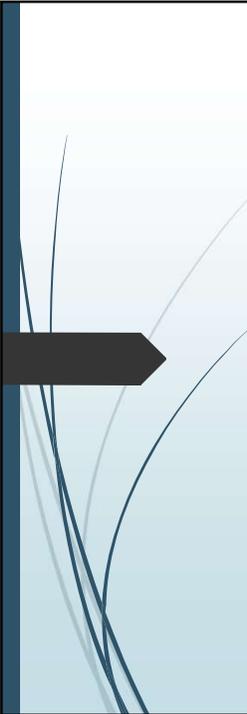

How did that go?

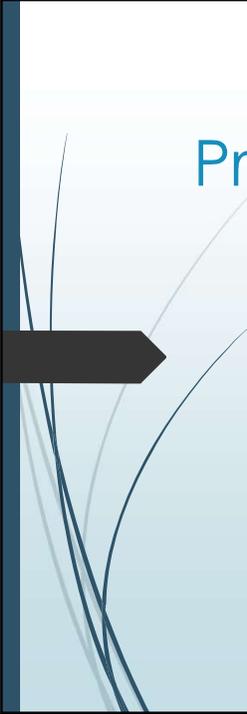

How much time – over the rest of your life,
would you have saved if you would have
taken the time to go get the face shield?

Pre Fab Pipes

Pre Fab Pipes

Pick up the pipes

Move the red pipes to the table at the back of the room

Blue team switch pipes with the purple team
while standing in between the tables

Set the pipes down on the tables
